

## **Lösung**

### **I am waiting at Euskirchen main station**

I am waiting at Euskirchen main station. I am standing on platform 1. Near me a family of four is sitting on a bench. The mother and father are talking. The small boy of seven is reading a comic book. His sister is asking their mother for something to drink. An older lady is looking at the timetable. On the one end of the platform two boys are listening to music. They are using their headsets for their smartphone. An old man is opening the door to the entrance hall. A young woman is passing through the other doors. I am walking along the platform. I can see two people entering the bookstore. Four people are waiting in a queue to enter the travel agency. Three boys are leaving Mc Donald's. I am passing two girls who are sitting on a bench. One girl is looking into her math book. The other girl is writing a text message on her mobile. Not far away a man in a business suit is waiting. He is holding his mobile in his right hand. In his left hand he is carrying a black suitcase. My train to Trier is arriving.
